

E-Learning Students:

In case of inclement weather, students in grades 7-12 may have an E-Learning day. Parents and students will be notified by school reach and on social media if that occurs.

On E-Learning days, students are responsible to bring their chromebooks, notebooks and folders home, textbooks are not required. It would be best practice to bring home the materials needed if bad weather is in the forecast. First hour teachers will have a google form posted in their google classroom by 8:30 AM for students to complete so attendance can be recorded.

Students must complete the form by noon the day of E-Learning. All classes will have assignments posted in google classroom for that day. If students have any questions, they will be able to communicate with their teachers via email from 8:00 to 4:30.
