

# Using the free JLG Digital Desktop version

## How-to

1. Click the school-level book stream of your choice: [Elementary](#), [Middle School](#), [High School](#).
2. **Ignore the Personal Account Sign-In box at the top of the page**—just scroll down to the books and get started. You can even click the “X” in the top right corner of the sign-in box so that it goes away.
3. **Simply click on a book to go to its page, then click the “Read” or “Play” button** to begin reading/listening. Audiobooks are designated with a headphone icon on the lower right corner of the book cover; ebooks are designated with a tablet icon on the lower right corner.
4. If an audiobook fails to play, check your browser. Audiobooks will **not** play in Internet Explorer or Microsoft Edge.

## More tips

- All books in the streams are multi-user, meaning an **unlimited number of readers can access them** at the same time.
- A selection of titles will expire at the end of each month, so **watch for the “Leaving Soon” banners to appear on the cover art**. But, don’t worry—new titles will automatically be added to the streams at that time, too!
- The Search feature will bring up titles that are **not available** to be read. These titles are not currently in the streams and cannot be accessed. Only books with the “Read” or “Play” buttons are the books available to read.
